

Basis® Headwall System

Healing Environments

WittRock's Basis® Headwall System meets the challenge of making a clinically-demanding patient room more attractive and appealing.

CLINICAL VERSATILITY

The Basis headwall supports essential patient room clinical functions and acuity needs from ICU to Med-Surg.

- Options for gas and power
- Provisions for data and communications systems
- Scalable to any acuity need
- Services ergonomically positioned to reduce reaching and bending
- Mounting tracks for adding and positioning equipment and devices
- Optional decorative panel system

EASE OF INSTALLATION/DURABILITY/ CLEANABILITY

The Basis headwall is a flexible platform that offers custom designs in a factory-tested, pre-plumbed, pre-wired medical headwall. It is ready for a general contractor to install.

- Minimum brazing and conduit connections (single point rough-in connection)
- In-wall and on-wall options for new construction or renovations
- Durable steel frame and panel construction
- Easy-to-clean, faceplate-free, linear design

DESIGN AND AESTHETIC OPTIONS

The Basis® headwall provides a simple, clean, linear look that matches with a hospitality environment, while offering clinically robust features.

- A wide variety of standard laminates
- Space saving, flush, in-wall option (double-sided or single-sided)
- Vertical and horizontal configurations in a variety of heights and widths
- Solid wood or anodized aluminum trim
